

Volunteer with us

# Patient Transport Drivers

## About the opportunity:

St John Scotland Ayrshire and Arran is starting a patient transport service for renal patients at University Hospital Ayr. We hope to launch this new initiative very soon.

We are currently recruiting volunteer drivers to take dialysis patients to and from University Hospital, Ayr.

If you:

- live in the local area
- are aged between 25-80
- are friendly, and have a sense of responsibility and commitment
- have access to your own car and are happy to use it for patient transport

We'd love to hear from you!

Volunteer expenses and mileage are covered.

If you can spare a few hours on a regular basis to help us get our new initiative off the ground, please do get in touch with Colin McCormick, Patient Transport Lead, St John Scotland Ayrshire and Arran:
